BZ IN ÅRHUS

During the last years several houses have been squatted to get a youth-house or for housing, here in Århus. After some time, short or longer, the squatters have been evicted, and the house demolished or used for something else.
Latest, 3 flats in Helgenæsgade have been squatted, by a group of "bz'ere" (=squatters), who a short time ago was evicted from a squat in Fiskergade. The flats had been empty for almost two years. According to danish law it's illegal to let a flat stand empty for more than 5 weeks - but a lot of houseowners break this, as tney hope to sell the flat with a big profit...
4 months ago the squatters broke in and cleaned up and organized the flats to live there. A lawyer has - free of charge - helped to get in touch with the owner. After being told that the flats <u>were</u> already let out, and after some mess, change of owners, the squatters succeeded in getting tenancy agreements on the flats. But the rent is for each flat 2oookr a month - rather expensive for a 5om^2 two-room flat in Århus. The "old" tenants living in similar flats in the house pay less than 7ookr each, they have rejected an increase in the rent, which was notified by the owner on account of "contemplated improvements". The squatters will try to get their rent down, by involving the Rent Control Board.
It is hard to tell whether this squat-action have been a succes it's rather limited, anyway, there's still a lot of homeless people in Århus, and still no youth-house. In any case, some young people did get something to live in, by their own action, and some illegally empty flats are now in use. And perhaps, this might be a kind of basis for a continued bz-movement in Århus - there are more empty flats and more homeless youth, and also some people with experience in do-it-yourself housing assignment...

OPINION POLL

Amajority of the danish people now thinks that you can NOT have full confidence in the danish judicial system (if the Gallup-institute is right in its prediction). 44% answered no, 42% yes to the question: "Do you generally have full confidence in the dansih judicial system?".

OFFENDING THE POLICE

In succession to discussins in- and outside the policeforce it has now become an offence (according to the penal code) to "give the finger" to a cob. Certain members of the force have felt that much offended to this kind of finger-languge as to try to charge the "sinners" with §3 of the police regulations - "disturbing the public order". However, these case had to be dropped, as the prosecuting authorities considered the finger-sign to be neglectable.
But smart-heads at the Public Prosecutor have made out that instead they may charge people with §121 of the penal code - "persons, who with scorn, abuse or other kinds of insulting speech, assaults anybody, who are obliged to act in pursuance of public service, are liable to penalty". Some people have already - in several cases - been sentenced to fines at 5ookr.
SO - TAKE CARE OF YOUR MIDDLE FINGER WHEN GOING TO DENMARK!

Western Germany

The young Neo-fascistic leader,the primer lutender,Michael Kühnen,is showed up in Paris,where he has got an appartment,and probobly an office to disposal from the french fascist-organisation FNE.Michael Kühnen has been living illegal in Swiss since the court in Flensburg made an arrestorder on him,the 26 of May this year.His forbidden organisation in BRD the ANS/NA(Action Front National Socialist/National Activist) is the firmament for the newly grounded "Foreign ANS" an European ANS-movement. Nazis from several european contries have lately joint meetings in the Paris office.The first plans in writing,from Kühnen,is cirkulating in several contries.In an manifesto from the german Nazi boss -Titlet"Our Europa"he request for remaking a nazi-party like Hitlers-with the slogan "His fight,our inheritance-The fight wents on".

According to "Stern",Kühlen should have said, that the target is to establish SA-stormtroops, to guide the political streetfight into an European revolution Observers in Paris Reports that theres possibly may be a connection betwen Kühnen and the succesfull extrem kight wing Jean-Marie Le Pens party, Le Front Nationale. An militant organisation astosiate to the ANS,-the BRAUNSweiger group, which leaders in 1981 was heavily,has for seueral years procured weapons and explosives made in Swiss, and has got Nazi propaganda material made in Denmark.

In secret protocols from the Courtcase can it be read, that the leader Poul-Otte and Volker Heidel, Wolfgang Sachen and Hans-Dieter Leipzen several times has been in Denmark, to get propaganda materiels, and to meet neo-nazistmens The Security autorities has stopped all kind of information about the Neo-Nazis International activitets.

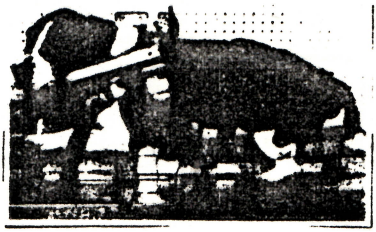
"Verfassungsschultz" has tried hardly to cover, that one of the leading members of the braünsweigergroup, the 41 years old heipzen has been send to Denmark, Swiss, Holland and France-probobly without the local autoritis knowing-to gatherinformation to the German Secret Autoriries. According to the leading Vervassungshutz member of Niedersachens ministry of inteior (home office) Peter Frisch, there is no attention to publici the affair- because they fear that is will, cause bad ex positions of the working methods of the Vervassungsshutz.

But ecxatly just the work methods of the secret police- and the intelligens offices gives reasons to reflection. Lepsien was hired and paid from the security police and his journeys to Nazi-meetings in the neightbur Countries was paid by Vervassungsshultzs expence Account. Hans Dieter Leipzien is to be let off the mainpart of his pusnishment. (3 years in prison).

ANIMALS USED FOR EXPERIMENTS

The Komite against Experiments on Animals appeals for a boycot of cosmetic products, which have been tested on animals - for instance, eye-irritation-tests on tied-up rabbits, and LD5o tests, where a number of animals is exposed to a poisonous substance until 5o% are dead. None of these tests are "reliable" enough as to transfer the results to humans - never the less, thousands of animals suffer and die in consequense of the experiments, owing to the comfort and vanity of human beings, and because of the need of the producents to declare their products as "harmless".. The Komite names products - soap, shampoo, toothpaste, lipstifts, deodorants, perfume etc - of these brands as tested on animals: Avon, Bristol-myers, Elisabeth Arden, Estee Lauder, Gilette, Johnson&Johnson, Max Factor, Lancome, Noxell, May Belline, Proctor Gamble, Helena Rubenstein, Pierre Robert, Bonne Bell, Nina Ricci, Ardell, Alcina, Margarete Astor, Beauty Box, Optique, Gibbs, Christian Dior, Boots og Alfred Benzon (Natusan). Also "allergy-safe" brands, like Desilen and Minirisk are tested on animals. Brands which are not tested on animals, named by the Komite: Tiki, Arya Laya, Biokosma, Urtekram, Heliotrop, Weleda, Biodessa, Yardley, Dr Hauschka, Urtegården, Paul Penders, Marja Entrich, Annemarie Börlind, Maurice Messegue og BWC (Beaty Without Cruelty). But it is not only in private establishments lack of respect for life and living creatures is found - in public institutions too, lots of animals are used for experiments, for the "progress" of human beings. In 198o 233 dogs, 64 cats and 19 monkeys were killed in experiments on Århus Universitet, Århus Municipal Hospital and the School of Dentists - a good many of the animals were used in so-called "survival-experiments".

STOP EXPERIMENTS ON ANIMALS -
USE A PROFESSOR INSTEAD !



Nato Barbed-wire.

Obiusly a heavy paranoia rules authoryties in Horsens state-prisor Exercises saturday and sunday will because of security-reasons only get through in late afthernoon. Remote controlled cameras and ultra wavesteared alarms is instalated. The numbers of prisoners is been reduced from 2oo to 16o,and more crew is imployed.

But to"effectfull" obstruting escape authoryties has decided to sett up a Nato barbed-wire at the outher wall(a barbed-wire filled up with small knifes-made for situations of war)A part of the wire is in fackt already sett up - against massive protest from the prisoners and FIG (prisoners interrest group)

FIG thinks that it is inhuman and that Horsens stateprison looks more like a K2-camp than a prison.

The FIG was build up shortly afther the spokesmansship was laid down, because of missing will to cooperation from the authoryties.

Still - the authoryties can close their ears for the FIG ,because FIG is not recognited as a part of negosiation.

Women's Peacecamp.

Nuclear Weapons must never be directed from Ravnstrup

THE WOMEN COMES

The women peasecamp near Ravnstrup consumes all women to join the camp, where the day contens pratical doings, plannings for actions, discussion about Women and Peace. We can use all sort of women-each women do what she can-difference gives power to learn each other. Bring a tent if you have or come nevertheless.

Some women in spring 84 found out there was a natobunker in Ravnstrup - a bunker from which an underground commanding bunker filled with the most modern electronic eqipment.

Because of Denmark is nuclearfree country the womwn sat up a peasecamp,partly to public the existen of the bunker, partly to protest aginst it.

Afther serevel actions in Viborg forbid the camp, and the women was taken away by the police, but a friendly Nightbour let the camp into his field, where it still is

AROUND AN ACTION

The 25 august more then 3oo women gathered in the camp. The marched in to militari territory rigth above the 12o feet deep laing bunker -which among other things shall direct the rockets in northern germany.A great number of women has all summer violated military territority--to show that they dont want an offensive danish defense.

The actions contended bathing in the military lakes,graffiti-writing on the military practise-towns,slogans on the target-disks,collection of herbs in the target-area A.O.T. Many got arrested,without disturb the work of the peace-camp.

The 2o'th. of october there was another action.In the days before people gathered,doing nonviolent-practice.75 women arrived to rush down the military gate,but it was impossibly,because of a lot of police and militarys.The action should be like a bibel-tale,where the Jews owerturned the walls of Jeriko.The women went 7 times around the fencing,which was strengted with new barbed-wire.They started silently, but on the 7'th. round they started to sing and hum - but the barbedwire standed whole.The authorities thought that it would be a mighty demonstration -more than 5o police and militarymen,with 5 big police-busses where at the gate.

During the summer,the women has succeded in entering the area-planting their peace-banner on the walls and on the bunkers(they digged down under the barbedwire)

Some of the women will stay all the winter in the peace-camp.
